

Majella at a glance

The Catholic natural family planning app

ESSENTIALS

Name: Majella (store listing: Majella NFP & Cycle Charting)

One line: Sympto-thermal cycle charting that honours the Faith and keeps a woman's data on her own device.

Developer: Trinitas Homes Pty Ltd, Melbourne, Australia · **Category:** Health & Fitness

Web: majellafertility.com · **Press:** admin@trinitashomes.com.au

AVAILABILITY

iPhone: Available now on the App Store. iOS 17 or later.

Android: Available now on Google Play. Android 7.0 or later.

Price: Free to download, everyday charting free. Optional Majella Pro subscription (monthly or yearly). **Rating:** 13+.

WHAT MAJELLA DOES

Charts the sympto-thermal method properly: basal body temperature and wrist temperatures from compatible wearables on one graph, alongside cervical mucus observations, LH test results, periods, symptoms and moods. Shows its reasoning, and never reduces a cycle to a bare fertile or infertile verdict. Predicted fertile window and cycle phases, with insights that grow richer across cycles. Charts share as a clean PDF with a woman's NFP instructor, and a directory of certified fertility awareness educators is built in. Majella is made for learning the method with an accredited instructor, not replacing one.

WHAT MAJELLA PRO UNLOCKS

Everyday charting is free. An optional Majella Pro subscription unlocks the full experience: exporting and sharing a chart as a PDF with an accredited instructor, deeper insights and trends across cycles, wrist-temperature charting from compatible wearables, and encrypted backup to a personal iCloud or Google Drive.

PRIVACY, STRUCTURALLY

No accounts. No ads. No trackers. No analytics. No data sold. Cycle data stays on the device unless the user chooses a backup to her personal iCloud or Google Drive. The only data collected is purchase history through the app stores, not linked to identity.

THE NAME

Majella is named for St Gerard Majella (1726–1755), the Redemptorist brother venerated as the patron of expectant mothers.

THE COMPANY

Trinitas Homes Pty Ltd is a family software company in Melbourne, run by a husband and wife who wanted cycle software they could trust with both their faith and their data. Majella is its first app.

BOILERPLATE, FOR PUBLICATION

Majella is the Catholic natural family planning app from Trinitas Homes, a husband-and-wife software company in Melbourne. It offers sympto-thermal cycle charting with temperature, mucus and LH observations on one chart, explains its reasoning rather than issuing verdicts, and keeps all cycle data on the user's own device. Majella is free on the App Store and Google Play. majellafertility.com

Majella charts and educates. It is not a medical device and does not diagnose, treat or prevent any condition. App Store: apps.apple.com/app/id6780164803 · Google Play: play.google.com/store/apps/details?id=au.com.trinitashomes.majella · Press: majellafertility.com/press
